## Objective

I'm a passionate and curious Software Developer who enjoys solving real problems through code. With skills in web development, virtual assistance, and a growing interest in AI, I'm looking for an opportunity where I can build meaningful projects, keep learning, and be part of a team that's making a real impact.

## Experience

- Holy Innocents School** 26/2/22 - 14/6/22  
Computer Instructor  
Planned and delivered structured computer lessons tailored to students' grade levels and learning needs
- Tassia Catholic School** 10/7/22 - 25/11/22  
Computer Teacher  
Designed and supervised student projects that applied real-world technology skills such as presentations, coding, and digital design.

## Education

- Kenyatta University** Currently  
Telecommunication and Information Technology
- ALX AFRICA** 20/2/2024-27/11/2024  
Virtual assistant and Artificial Intelligence
- Mwongori Highschool** 2019-2022  
B+

## Skills

- HTML, CSS, JavaScript
- Virtual Assistance
- Artificial Intelligence Basics
- Python Programming
